

Solar Smiths

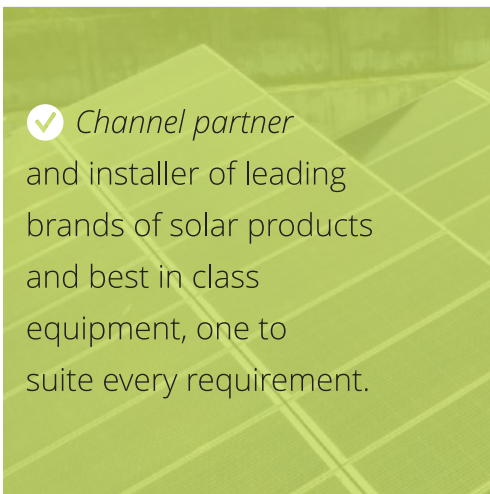

Go Solar the Expert way!

SolarSmiths Advantage

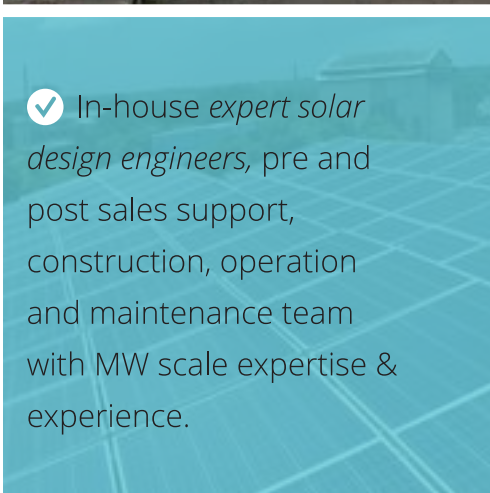

✓ MNRE and TPDDL empanelled solar systems installer, authorized to provide capital subsidy, depreciation and net metering benefits.

✓ Channel partner and installer of leading brands of solar products and best in class equipment, one to suite every requirement.

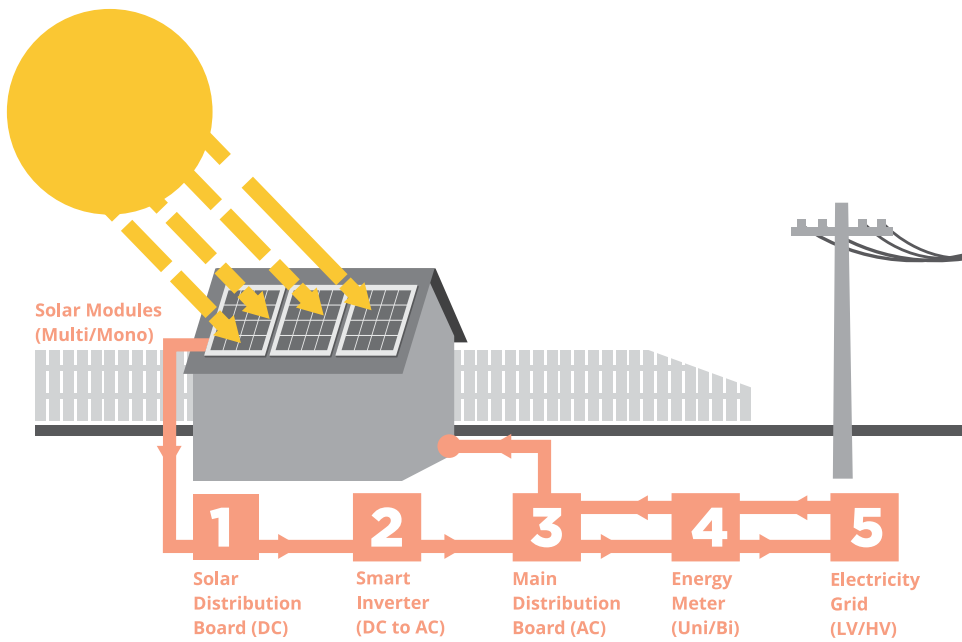

✓ Diverse Residential, Commercial, Industrial & Institutional solar projects portfolio with varied clientele in Banking, FMCG, Manufacturing, Warehousing, Real Estate & more.

✓ In-house expert solar design engineers, pre and post sales support, construction, operation and maintenance team with MW scale expertise & experience.

SolarSmiths Technology

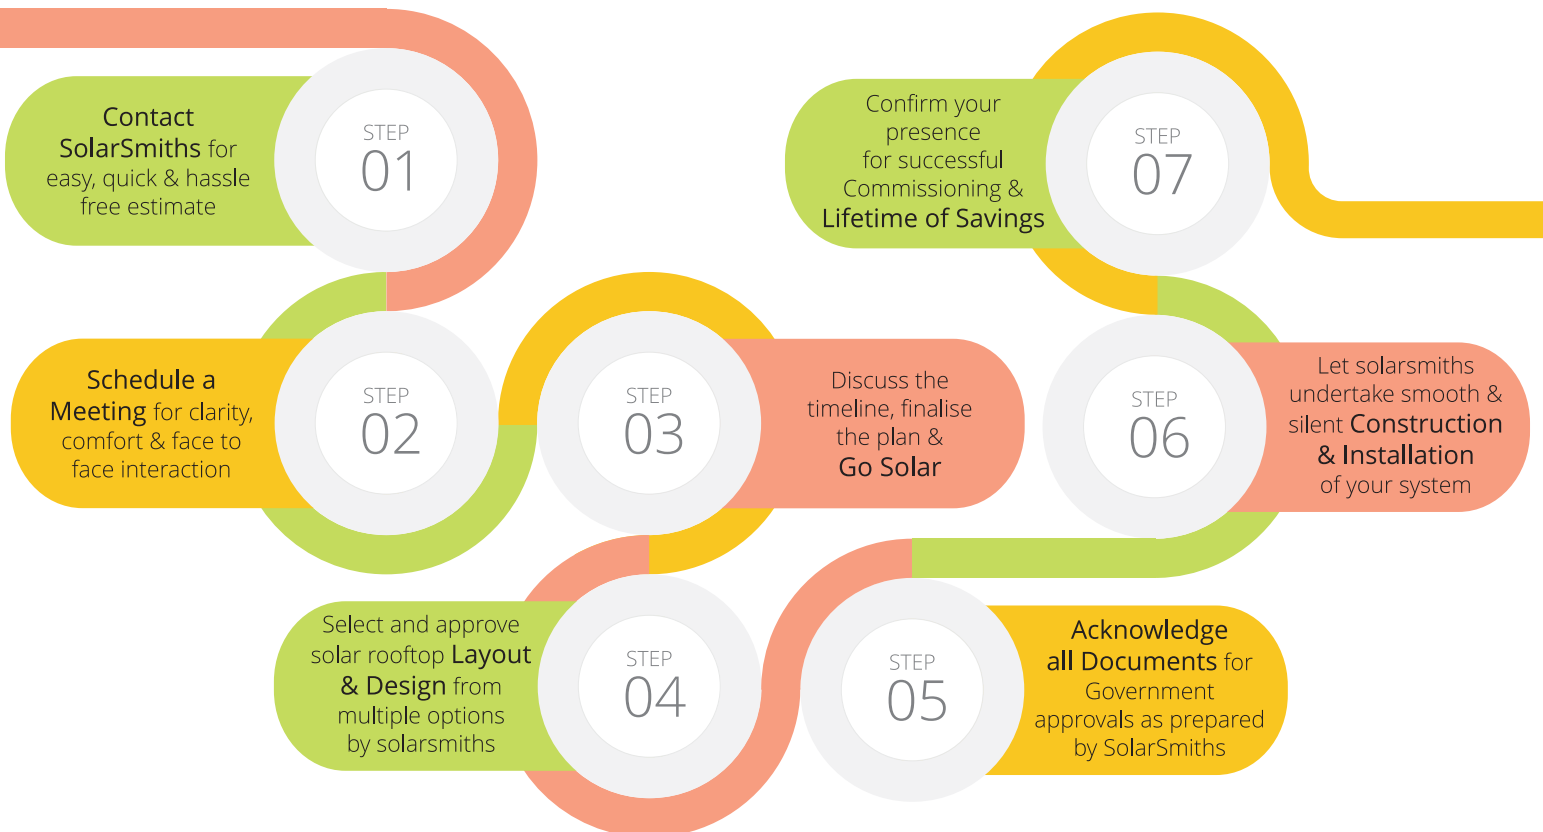

- 1 Reduce electricity bills
- 2 Hedge against rising electricity tariffs
- 3 Utilise and earn from idle roof space
- 4 Reap substantial government tax and fiscal benefits
- 5 Reduce carbon footprint and Go Green

PowerSmith series of Grid connected solar PV systems are designed to operate as a secondary source of energy in tandem with regular and existing power sources such as electricity grid or diesel genset. With ability to smartly synchronize and operate in extreme power conditions, these systems offer **maximum performance** and effective generation in the limited roof space.

Keeping in mind **simplicity**, ease of operation and **minimal maintenance**, *PowerSmith series* of solar energy systems payback for themselves several times over lifetime. So **make energy while the sun shines** and go solar with SolarSmiths today!

Go Solar in 7 Easy Steps!

SolarSmith Energy (P) Ltd.

SolarSmith Energy (P) Ltd. (SolarSmiths) is a multi disciplinary organisation specialising in professional consultancy, engineering, procurement and construction services across the Solar Energy sector. The company comprises of a team of highly experienced system engineers, designers and installers with vast collective knowledge, skill, experience and project portfolio. SolarSmiths are uniquely placed to provide its expert consulting, EPC and O&M services to demanding Indian corporates, industries and residents alike.

Engineering & Consultancy

Backed by an expert team with over 5 years of specialised experience in solar photovoltaics and diversified project portfolio of private, public and corporate organisations, SolarSmiths have always come up with new innovations in space optimisation, yield maximisation, downtime and loss reduction. The inhouse technical team is abreast with latest industry products, practices, trends and expert at assessing, preparing and providing financial and technical feasibility, due diligence, detailed project reports and audit services.

Procurement & Construction

With over 3 decades of experience in executing turnkey projects as well as manufacturing raw materials for the solar module industry, SolarSmiths P&C team is second to none. From conducting strict quality checks for plant equipment to following international standards & practices for project implementation, everything is well thought off and documented by the SolarSmiths. From inspection of nuts and bolts to random BOM sample testing, SolarSmiths implementation ensures troublefree plant operation for over 30 years.

Operation & Maintenance

Drawing experience from managing O&M contracts of FMCG, manufacturing, services, pharmaceutical clients, SolarSmiths are well prepared to offer their expert O&M services to the solar photovoltaic industry. With 24x7 service support for preventive maintenance, troubleshooting fault finding & system monitoring, SolarSmiths ensure maximum uptime and generation yield from solar assets. With variety of O&M packages, SolarSmiths ensure plant longevity at reasonable investments.

SolarSmith Protect

Safeguard your investments with one of SolarSmiths comprehensive or general O&M contracts. With hassle free, trouble free & in and out of warranty faulty equipment replacement or repair support, SolarSmiths offer complete satisfaction for project lifetime. Authorised & skilled repair, maintenance and training workforce ensure lower downtimes, better performance and ensure plant longevity along with proper operational training during commissioning. Go Solar with complete peace of mind with SolarSmiths.
